

# ROKIB AL DHIN RAADH

raadxbusiness9@gmail.com | raadh@oxiedo.com | raadh.me | oxiedo.com

18-year-old independent AI researcher. Founder of Oxiedo, licensing the ORMAS training architecture to institutions whose data is closed to deep learning.

## Publications & Technical Reports

**R.A.D. Raadh.** “ORMAS: Neural Architectural Transparency Enables Autonomous Self-Correction.” 2026. Zenodo preprint. DOI: [10.5281/zenodo.21730363](https://doi.org/10.5281/zenodo.21730363).

**R.A.D. Raadh.** “Self-Repair as a Bounded Disturbance: Input-to-State Stability of Neural Network Training Dynamics.” **DeepMath 2026**, Ohio State University. **Accepted (poster)** after double-blind review.

## Recent Academic Service & Recognition

- |          |                                                                                                                                                                                                                                                                                                                               |
|----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Dec 2026 | <b>Reviewer, Program Committee</b><br><b>Trustworthy AI for Good (AI4GOOD) Workshop</b> — <b>NeurIPS 2026</b> , Paris <ul style="list-style-type: none"><li>Peer review for the workshop’s trustworthy-AI track, covering mechanistic interpretability, attribution, post-deployment monitoring and model auditing.</li></ul> |
| Jul 2026 | <b>Cosmos Institute</b> — Grants Review<br>Application ranked <b>highest in its cycle</b> . Not funded: that round backed philosophical work on AI, and ORMAS is a technical architecture. Invited to reapply to a technical track.                                                                                           |
